### LARGE DISCREPANCIES SHOWN.

In Accounts of Consolidated Gas Company of New York.

New York, April 1.—Apparent discrepancies of \$11,000,000 in the amount of profits and of \$13,000,000 in the total amount of investments in the statements submitted by the Consolidated Gas company, formed the salient features of the second day of the inquiry by the legislative committee conducting the gas investigation in this city.

On behalf of the company it was said that another statement would be presented shortly showing what disposition had been made of the \$11,000,000 profits. On account of the absence of R. A. Carter, secretary of the company, due to illness, no explanation was offered of the difference of \$13,000,000 beyond the statement of counsel that it was attributed to the difference between the price of properties acquired and their present actual value.

**Heavy Snow in Black Hills.**  
Deadwood, S. D., April 1.—Two feet of snow have fallen in the Black Hills in the past two days. It is the heaviest storm of the season. Trains in the mining districts were abandoned one day. The storm did not reach beyond the foothills.

### The Misery of Piles

Thousands know it and thousands daily submit, through their ignorance, to the torture of the knife.

They are ignorant of the fact that there is an internal remedy that will positively and painlessly cure.

### Dr. Perrin's Pile Specific

The Internal Remedy

strikes at the prime causes of piles—indigestion, congestion of the liver and constipation. These causes are removed and removed for good. Get a bottle today and see how well it proves the truth of this statement.

For dyspepsia, indigestion, constipation, biliousness, catarrh of the stomach and kindred ailments it is the greatest remedy that has ever yet benefited mankind.

When these troubles are taken care of and cured, Piles will be a thing of the past.

## JAPS REJECT TERMS

PEACE PROPOSALS OF RUSSIA NOT ACCEPTABLE TO THE ISLAND EMPIRE.

## OYAMA'S FORCES ADVANCE

MAIN JAPANESE ARMY MARCHING NORTHWARD WITH WINGS FAR EXTENDED.

St. Petersburg, April 1.—A report current here late at night that Japan has declined to negotiate for peace upon Russia's basis cannot be traced to any responsible source.

## JAP ARMY ADVANCES

OYAMA'S FORCES MARCH NORTHWARD WITH WINGS FAR EXTENDED.

St. Petersburg, April 1.—The news from the front indicates that Field Marshal Oyama has begun a genuine advance of his main army with wings far extended. Heavy reconnaissances are being made against the Russian center with the object of developing the Russian position.

## NEAR MONGOLIAN FRONTIER.

Especially Activity Noted on the Part of the Japanese.

Gunshu Pass, April 1.—Reconnaissance disclose special activity on the part of the Japanese on the west, near the Mongolian frontier.

It is reported that an anti-foreign propaganda is being conducted among the Chinese, who are being stirred up to a renewal of the Boxer disturbances. The Hun Yuan Min societies of Mukden and Kirin and the Tsai-Li society, which is strong in Tsitsihar and Northern Manchuria, are said to be working to spread this agitation among the Manchurian population and Japanese success is doing much to augment the movement. Many Chinese bandit chieftains are leaders in numerous secret societies extending throughout China and their influence may have a powerful effect on the attitude of the Chinese government and population.

## JAP PRISONERS SUICIDE.

Gossip Attributes Their Action to Ill Treatment.

St. Petersburg, April 1.—The Bourse Gazette prints a report that a number of Japanese prisoners at Medved had killed themselves by hari kari and with arsenic. Gossip in some circles in St. Petersburg attributes the suicides to ill treatment.

The American embassy has not been advised on the subject. A short time ago, at the request of the Japanese government, the embassy sent a representative to Medved to investigate complaints by prisoners of war and reported that with the exception of a few minor details, which the Russian government undertook to correct, the Russian arrangements were admirable.

## WAR WILL BE CONTINUED.

Complete Change in Situation as Regards Peace.

Paris, April 1.—Whatever hopefulness the peace situation may have had some days ago the situation has now completely changed and there is every prospect that the war will drag on again. Consequently dispatches appearing in America saying that Foreign Minister Delcasse and Dr. Motono, the Japanese minister to France, have been conferring at the former's house relative to peace are inaccurate. The foregoing view of the situation is taken by the parties immediately concerned and it is asserted with the authority of the foreign office and the Japanese legation.

## Whiteman Out on Bail.

Buffalo, N. Y., April 1.—Alonzo J. Whiteman was released from jail on \$10,000 bail during the day. Bail was furnished by a surety company. Whiteman was recently acquitted on a charge of grand larceny, but several counts of the indictment still stand against him.

## Glycerin For Indigestion.

Glycerin is a really valuable remedy for indigestion, and in the course of a few days, or at most of a fortnight, a sufferer may expect to be cured. Mix a small teaspoonful of pure glycerin with water and take it with or immediately after each meal. Of course the patient should also use discretion in the selection and in the amount of food, for if the diet be at fault it is folly to expect health.

## BETWEEN CHURCH AND STATE.

Movement in Russia to Sever the Bonds.

St. Petersburg, April 1.—The movement for severing the traditional bonds between church and state and giving to the holy orthodox church independence and self-rule, which will increase its influence among the people of Russia, has found favor with an important group of clergy at the capital, and a noteworthy document setting forth the views of those of this persuasion, which was presented to Metropolitan Antonius of St. Petersburg, has been received with sufficient consideration to insure its publication in the Church Messenger, the semi-official organ of the diocese of St. Petersburg and one of the most important religious papers in the realm. The document, after arguing that the church should free itself of obligation to the state in order to lend all its energies to the prosecution of its own special work and eliminate the suspicion that its ministrations may be confined to worldly ends, demands the summoning of a general council of the church to consider means of attaining the greater freedom required. Its publication in the Church Messenger has occasioned much comment in St. Petersburg and in religious circles generally and it is reported that the holy synod has decided to recommend to Emperor Nicholas the summoning of such a council.

The question is all important one on account of the strong connection between the religious and political elements in the Russian social organism and that it has been raised and pressed at this time indicates the extent to which Russian society is stirred at the present hour. The movement is believed to be now largely confined to a group of Metropolitan clergy.

It is said that the committee of ministers will soon take up the question of administration of church property of Armenians.

## MALCONTENTS DISPERSED.

Police and Troops Quell an Incipient Riot.

St. Petersburg, April 1.—An assemblage of workmen in the Petersburg quarter in the evening demanding the liberation of imprisoned strike leaders, nearly led to a riot. Mounted police and troops were summoned and surrounded the malcontents, who, seeing that resistance was hopeless, sullenly disappeared, a few being injured in the scuffle.

## MRS. HILL VERY SICK

WIFE OF RAILROAD MAGNATE BEING HURRIED FROM FLORIDA TO NEW YORK.

Norfolk, Va., April 1.—Extraordinary means are being taken to get Mrs. James J. Hill, who was taken ill at Ormonde, Fla., to New York for treatment.

The Florida Special of the Seaboard Air line is hauling Mrs. Hill's private car from Ormonde to New York on what is believed will prove record-breaking time.

Officials in charge of the divisions over which the train will pass in its race against time have been instructed to use special vigilance to see that it is expedited.

## COLLINS CHOSEN PRESIDENT.

Former State Supreme Court Judge Head of Insurance Company.

Minneapolis, April 1.—Loren W. Collins, former judge of the state supreme court, was Friday elected president of the Northwestern National Life Insurance company in succession to W. F. Bechtel, who resigned his office at the request of the insurance commissioner. His selection was made by a citizens' committee, headed by Mayor Jones, which was appointed by Governor Johnson for the purpose of considering the affairs of the company.

This committee also selected directors to supplant those who have retired.

## WILL TEST REFINERY BONDS.

Kansas Officials Will Find Out If They Are Valid.

Topeka, Kan., April 1.—The validity of the state oil refinery bonds will be tested. This was decided at a conference in which Governor Hoch, Treasurer Kelly, Warden Jewett, Attorney General Coleman and Assistant State Auditor Nation participated. To make a test case, Kelly and Jewett refuse to sign the refinery bonds. A proceeding in mandamus therefor will lie against them, and Mr. Coleman will start such an action in the supreme court as soon as the papers can be prepared.

## McCormick Arrives in Paris.

Paris, April 1.—Robert S. McCormick, the new American ambassador to France, and Mrs. McCormick arrived here at 4 p. m. direct from St. Petersburg in pursuance of instructions from Washington.

We are sparing no effort nor expense to make our store and our sales people as much to your liking as any store you may visit in city or country. We hope to merit your confidence. First, in the material we sell; then, in our sales people. In short, we want you to feel that you can give us your confidence and that it will never be betrayed. What is wrong we will always right.

MISS CLARA FULLER will return from Duluth tonight after spending the entire week in the retail stores where she has had access to the fitting rooms of the best stores there. She has previously had a dressmaking experience and with these special instructions she will be able to superintend the alteration of all ready-to-wear garments in a most satisfactory manner.

MISS BERTHA STADE will leave for the twin cities Monday where she will meet, by special appointment, an expert corset demonstrator from New York. She will take special instructions and attend her lectures. Living models will be used in demonstrations. We are having Miss Stade take these special instructions that she may be able to take your measurements and have a corset made to fit you perfectly. We have taken the agency for the famous "Nemo" and "Smart Set" corsets and will have more to say about these later.

## Suits! Suits!! Suits!!!

Yes, more new ones. We are not going to cry "wolf wolf" to have you hurry down here Monday to be disappointed for we have some neat things to show you. We most heartily wish that the city was large enough to carry a large line all the time, but we are solving the problem in another way by having some few choice things sent in every few days.

## VISIT IS VERY SHORT

EMPEROR WILLIAM'S STAY IN TANGIER NOT SO LONG AS HAD BEEN PLANNED.

## MANY REASONS ARE GIVEN

AMONG THEM BEING RUMORED DISCOVERY OF ALLEGED ANARCHISTIC PLOT.

Tangier, April 1.—Emperor William of Germany paid a flying visit to Tangier during the day, remaining barely two hours on shore. The elaborate programme for his reception and entertainment was much changed, the emperor confining himself to a visit to the German legation, where he received deputations of Germans in Morocco. The changed plans caused much comment and disappointment.

The emperor had been expected to land about 8 o'clock but this had been delayed about five hours.

Meanwhile Count von Tattenbach-Ashold, former German minister to Morocco, boarded the Hamburg before the emperor landed. It was officially stated that the reason for this procedure was the roughness of the sea, but after the departure of the Hamburg it was stated on good authority that Emperor William having heard that there was a possibility of a Francophobic demonstration on the occasion of his visit, decided to shorten it.

Another reason, which has not received official confirmation, but which is credited, is that the German legation was informed an anarchistic plot had been discovered and advised that the emperor be dissuaded from landing.

## Every Precaution Taken.

Court von Tattenbach-Ashold visited the German legation and interviewed the Moorish authorities and afterwards notified his majesty that every precaution had been taken, but advised that the programme be confined to a visit to the legation.

Notwithstanding the shortness of his majesty's stay in Tangier, the occasion will be marked as one of the most brilliant and picturesque in the history of this pretty seaport. The Moors exhibited unwonted enthusiasm and throughout the two hours the emperor was on shore, no untoward incident occurred. His majesty appeared to enjoy his visit.

The scenes in the streets gave evidence of the sincerity of his welcome. The procession from the pier to the legation was exceedingly imposing. The ceremonies strangely contrasted with receptions at all other places

visited. His majesty was especially cordial toward the German colonists, whom he assured he would always maintain the rights and interests of German subjects in Morocco.

Before his departure for Gibraltar Emperor William bestowed decorations on Mulai Abd-El-Malek and the deputation sent by the sultan to welcome him.

## CREDITED TO EMPEROR WILLIAM.

Defiant Utterance in German Legation at Tangier.

London, April 1.—According to some special dispatches from Tangier, Emperor William, in the course of his speech at the German legation, said: "There is no preponderating influence in Morocco. Germany must enjoy the same rights as other powers. We guarantee that the sovereignty of Morocco shall and will be maintained."

This rather defiant utterance is probably a too free translation of the emperor's words, but it serves as a peg on which London newspapers hang further querulous editorial observations and criticisms as to the meaning of his visit.

## MAKES SIGNIFICANT SPEECH.

Minister Delcasse Says France Will Not Modify Her Policy.

Paris, April 1.—Foreign Minister Delcasse made a significant speech in the senate in the afternoon which evidently was designed to meet questions arising in connection with the visit of Emperor Williams to Tangier. The minister spoke with moderation, but his closing declaration that resistance in interested quarters would not cause France to modify her policy brought out vigorous applause.

## British Battleship Damaged.

Gibraltar, April 1.—The German cruiser Prinz Friedrich Karl, escorting the Hamburg-American liner Hamburg, with Emperor William on board, collided with the British battleship Prince George in going alongside the new mole here. The Prince George is leaking and will be docked.

## SHOT BY A WOMAN.

Private Detective Fatally Wounded in a Courtroom.

St. Joseph, Mo., April 1.—James Whitten, a private detective, at present in the employ of an Iowa insurance company, was shot in the back and fatally wounded during the day just after he had left the witness stand in the criminal courtroom by Mrs. Alice J. Keplinger, keeper of a boardinghouse. The woman claimed that Whitten had ruined her daughter.

## Ancient Coins Found in Iowa.

Templeton, Ia., April 1.—Thirty pieces of silver, dating for centuries back, were found during the day by Nicholas Goetzinger, while digging fence postholes. The money has evidently been in a roll, but the outer covering had rotted away. Some of the coins were minted by the electors of Prussia, others were from Hungary, Flanders and Bavaria.

## DEFENDS STANDARD OIL.

Vice President Rogers of the Company Makes a Statement.

New York, April 1.—H. H. Rogers, vice president and director of the Standard Oil company, during the day made a statement as to the conduct of the company, which was evidently prompted by the criticisms of the prudential committee of the American board of foreign missions for accepting a gift of \$100,000 from John D. Rockefeller. Mr. Rogers said:

"Ministers say queer things. Dr. Washington Gladden says that everybody knows that John D. Rockefeller has obtained his money dishonestly. With as much reason I could say that everybody knows that Dr. Gladden would not trust the ten commandments for ten days with the deacons of his church because they would surely break some of them and bend the rest. Slavery in certain sections of the United States was legal until President Lincoln's emancipation proclamation. Rebates on railroads were just as legal until the passage of the interstate commerce commission act."

After an exhaustive examination by the industrial commission authorized by congress June 18, 1898, says Mr. Rogers, in a review of evidence the commission reported that none of the charges that the Standard Oil had asked or received favors from railroads was sustained.

## BEEF TRUST INVESTIGATION.

New Complication May Be Brought About by Packers.

Chicago, April 1.—As the so-called beef trust investigation now stands, J. T. Connors, general superintendent of Armour & Co., who was indicted on a charge of attempting to influence J. Edwards Shields, a witness before the jury, will not be given a trial until the July term of court, when the other indictments, if any are returned, will be tried. It has been learned by federal officials, however, that Attorney Union, general counsel for Armour & Co., is preparing to appear before some United States district judge with a petition demanding an immediate trial for Connors. If the petition of Attorney Union should be granted it would be necessary to summon a petit jury, call Shields as the main witness and produce many alleged facts in open court which Shields testified to in the grand jury room.

Eight witnesses were heard by the jury during the day. Five of the witnesses were men employed by Swift & Co. in their Chicago plant.

## Want MacDonnell Ousted.

London, April 1.—The Irish Unionists, at a meeting during the day, resolved to withhold their support of the government on all questions involving an expression of confidence in its Irish administration so long as Sir Antony Patrick MacDonnell is retained at his post as under secretary to the lord lieutenant of Ireland.

Rockefeller. Mr. Rogers said:

"Ministers say queer things. Dr. Washington Gladden says that everybody knows that John D. Rockefeller has obtained his money dishonestly. With as much reason I could say that everybody knows that Dr. Gladden would not trust the ten commandments for ten days with the deacons of his church because they would surely break some of them and bend the rest. Slavery in certain sections of the United States was legal until President Lincoln's emancipation proclamation. Rebates on railroads were just as legal until the passage of the interstate commerce commission act."

After an exhaustive examination by the industrial commission authorized by congress June 18, 1898, says Mr. Rogers, in a review of evidence the commission reported that none of the charges that the Standard Oil had asked or received favors from railroads was sustained.

## BEEF TRUST INVESTIGATION.

New Complication May Be Brought About by Packers.

Chicago, April 1.—As the so-called beef trust investigation now stands, J. T. Connors, general superintendent of Armour & Co., who was indicted on a charge of attempting to influence J. Edwards Shields, a witness before the jury, will not be given a trial until the July term of court, when the other indictments, if any are returned, will be tried. It has been learned by federal officials, however, that Attorney Union, general counsel for Armour & Co., is preparing to appear before some United States district judge with a petition demanding an immediate trial for Connors. If the petition of Attorney Union should be granted it would be necessary to summon a petit jury, call Shields as the main witness and produce many alleged facts in open court which Shields testified to in the grand jury room.

Eight witnesses were heard by the jury during the day. Five of the witnesses were men employed by Swift & Co. in their Chicago plant.

## Want MacDonnell Ousted.

London, April 1.—The Irish Unionists, at a meeting during the day, resolved to withhold their support of the government on all questions involving an expression of confidence in its Irish administration so long as Sir Antony Patrick MacDonnell is retained at his post as under secretary to the lord lieutenant of Ireland.

Transcript Has Inside Information that Train Service Will Change in Few Days and Gives Schedule.

The Little Falls Transcript claims to know that the change of train service so much talked of during the past few days has finally been settled and gives its authority for the statement that the change will take place as follows:

"The Transcript was recently informed that the rumored change of schedule was assured and would take place about April 1. It was on the strength of information received from a prominent railroad man that this was stated and we therefore took it for granted that the report was true. A few days after the Brainerd Dispatch came out with an interview with Assistant General Superintendent Kline of the Northern Pacific system, in which he stated that the matter of changing the schedule had been dropped and that the trains would continue to run as in the past with Brainerd as a main line town. This made it a matter of conjecture among the people of this city as to what would be done.

"We are now able to inform our readers that the change will be made and that the new schedule is practically prepared and will go into effect within a few days. The superintendent of the division, M. M. Fowler, was in this city Thursday afternoon and stated that the new time table is ready and that although the exact time when it will go into force is not known, the division authorities have received orders to have everything in readiness to put it into effect on short notice. According to this new schedule Nos. 5 and 6 will run over the cut-off from Little Falls to Staples and instead of running only to Fargo, will run to Jamestown, and the Minnesota & International trains will run as heretofore, the run from Little Falls to Brainerd being added to that of the Little Falls and Dakota passenger which now runs from Morris to Little Falls and return each day.

"The change will give the long desired day passenger service on the cut-off and will also relieve the coast trains of a good share of the local travel, as it is said that during the next summer the locals will run daily excepting Sunday."

## For Spring 1905.

Not contented with merely "holding our own" in the way of trade, we have each season put forth new ideas and stronger values in the way of merchandise that we may broaden out and increase our business and be thereby enabled to sell at a closer margin, as well as gain greater advantages in buying.

## Better Values Will Increase Trade

THE RESULT OF OUR EFFORTS MAY BE EASILY SEEN BY OUR RAPIDLY GROWING BUSINESS.

Our showing in men's and boys' clothing for this season so far exceeds all previous efforts that we cordially invite an early inspection from everyone. Whether you are ready to buy or not, we believe that a look through our immense stock will be as profitable to you as it is pleasant for us to show them.

We are confident that our tailoring department and furnishing goods department will prove of rather unusual interest this season by virtue of the many specially selected styles shown.

Our shoe department is full of new styles. The Ralston Health shoe leads all others.

The attention of school boards selling books to pupils is called to section 3897, General Laws of Minnesota by the superintendent. The law is as follows:

"The board of trustees or board of education of each and every school district in the State of Minnesota is hereby authorized and empowered to select, adopt, or contract for the text-books needful for the use of the school or schools under its charge; and the said board of trustees or board of education shall have power to purchase the text-books selected or contracted for, and provide for the loan, free of charge or sale at cost, of such text-books to the pupils in attendance at such school or schools."

"It will be observed," said Supt. Wilson, "that boards are permitted to sell books to pupils at cost but no provision is made for selling at a profit. This applies to all districts alike whether common or special."

## For Spring 1905.

Not contented with merely "holding our own" in the way of trade, we have each season put forth new ideas and stronger values in the way of merchandise that we may broaden out and increase our business and be thereby enabled to sell at a closer margin, as well as gain greater advantages in buying.

## Better Values Will Increase Trade

THE RESULT OF OUR EFFORTS MAY BE EASILY SEEN BY OUR RAPIDLY GROWING BUSINESS.

Our showing in men's and boys' clothing for this season so far exceeds all previous efforts that we cordially invite an early inspection from everyone. Whether you are ready to buy or not, we believe that a look through our immense stock will be as profitable to you as it is pleasant for us to show them.

We are confident that our tailoring department and furnishing goods department will prove of rather unusual interest this season by virtue of the many specially selected styles shown.

Our shoe department is full of new styles. The Ralston Health shoe leads all others.

## Don't Neglect Yourself.

1468 Second Street,  
Louisville, Ky., April 14, 1905.

I have been weak and sickly for the past four years, caused by irregularity and carelessness regarding the laws of health, but about five months ago my condition became very serious. I had severe backache and suffered a constant dull pain in my head. I spent weary, painful days, and miserable, restless nights. The doctor told me that I must have patience. His medicine did not, however, give me even temporary relief and as I had been told of the curative qualities of Wine of Cardui I decided to try it. I found that it relieved me of pain. As my general health improved my other troubles were gradually diminished and after five weeks' use of the Wine of Cardui I was once more a well and happy woman.

## DUE TO DEFALCATIONS

CITIZENS' SAVINGS BANK OF LO-  
RAIN, O., FORCED TO SUS-  
PEND BUSINESS.

### THREE EMPLOYEES ARE RESPONSIBLE

CASH OF THE INSTITUTION AG-  
GREGATING AT LEAST \$90,-  
000 IS TAKEN.

Lorain, O., April 1.—At the usual time for opening the doors of the Citizens' Savings bank there were several hundred depositors on hand ready to draw out their money should the opportunity present itself. The crowd was made up for the most part of foreigners. Posted upon the door was a notice which read:

"This bank closed for business. The affairs of the bank have been placed in the hands of T. F. Fancher as assignee."

The decision to close the bank was reached by the directors after a long session the previous evening. While the directors are extremely reticent it is known that the closing of the institution resulted from defalcations by three of its employees and that the sum taken aggregates at least \$90,000.

The bank was organized in 1878 as the First National. It was the oldest bank in Lorain. The late C. T. Beckwith of the defunct Citizens' National bank of Oberlin was president of the Citizens' Savings bank here until five years ago.

President Honecker of the bank stated that the defaulting employees had agreed to turn everything of value they possessed into the bank. Mr. Honecker declared that he believed the depositors would receive every cent due them.

### Defaulters Under Bond.

One of the defaulting employees was under a bond of \$20,000. It is understood that property to the value of probably \$10,000 will be turned over by the men responsible for the wrecking of the bank.

No arrests have yet been made, although President Honecker announced that he expected to take the necessary steps for such an action shortly. Asked if the Chadwick operations were in any way responsible for the failure President Honecker said:

"You may say that the bank escaped Mrs. Chadwick completely and that the closing of our bank is in no way traceable to anything like the Chadwick affair. Mrs. Chadwick came to see us and I talked with her, but she did not get any of our money."

From authoritative sources it is learned that the exact amount of the shortage in the funds of the bank is \$97,000. To offset this the three defaulting employees carried indemnity bonds in favor of the bank aggregating \$40,000 and in addition have turned over real estate and other property to the bank to the value of \$12,000, leaving the net loss to the institution \$45,000.

### CLEVER SNEAK THIEVES.

Minneapolis Jeweler Loses Diamonds Worth \$3,000.

Minneapolis, April 1.—Two men of well-to-do appearance entered the jewelry store of John S. Allen in the Guaranty building about noon. When they left Mr. Allen was out about \$3,000 worth of diamonds and other jewelry. The steal was one of the cleverest of its kind in the annals of the police department of Minneapolis.

One of the men, a tall, rather good looking man, with a diamond stud prominently displayed in the bosom of his shirt, extended his watch to Mr. Allen, requesting that he repair one of the hands, which was broken. While Mr. Allen's head was turned the confederate, stooping down, crawled behind the display counter and "lifted" a tray of valuable gems. He rejoined his companion without attracting the notice of Mr. Allen and the two entered into conversation until the work Mr. Allen was engaged on was completed. The police have been unable to locate the thieves.

### CAUSED A SLIGHT FLURRY.

Chicago Board of Trade Firm Suspends Business.

Chicago, April 1.—Everingham & Co., one of the oldest commission firms on the board of trade, has ordered trades closed out. Announcement of the firm's suspension caused some excitement among traders, but prices were not perceptibly affected, as the firm was not carrying any large line. The firm has branch offices in Milwaukee, Minneapolis, St. Louis and Peoria, Ill.

Failure of customers to meet obligations, together with slack business and heavy expenses, are the reasons given for the suspension.

### Senator Burrows' Home Robbed.

Kalamazoo, Mich., April 1.—It was discovered during the day that thieves have ransacked the home in this city of Senator J. C. Burrows, who is still in Washington. The house was topsy-turvy from cellar to garret, with indications that the thieves held high carnival during their visit. It is impossible to say how much was stolen.

### Concerning Subscriptions.

There seems to be a misapprehension on the part of some as regards the subscription rates on THE DAILY DISPATCH. The rate of \$4 a year or \$1 for three months, is an advance rate and placed thereon in order to save the expense of collection and avoid the loss of accounts. Some, however, seem to think that they can pay at the end of the year and are then entitled to the paper for \$4. A moment's thought will show that such a course is simply putting a premium on not paying and would if permitted result in the loss to us of many accounts of nearly or quite a year each. Parties wishing the yearly rate must pay in advance or promptly on the presentation of account by the collector. If

## REFUSE TO DISCUSS CASE.

J. Morgan Smith and Wife Held by Ohio Officials.

Cincinnati, April 1.—J. Morgan Smith and his wife, the brother-in-law and sister of Nan Patterson, the actress held in New York on a charge of murdering Caesar Young, passed a quiet night at the Central police station, but neither would discuss the matter of their detention. District Attorney Jerome of New York requested the local authorities to see to it that every interest of the people of New York is safeguarded.

A telegram from one of Miss Patterson's attorneys said: "Keep your mouth shut. Your interests will be protected."

No definite charge has yet been placed against the couple, but as soon as the documents arrive from New York showing that they are under indictment there a charge of being fugitives from justice will be entered against them.

The conspiracy with which Smith and his wife are charged is that, with Nan Patterson, they tried to extort money from Young on the basis of a false claim that she was about to become the mother of a child for which he would be responsible.

Columbus, O., April 1.—On application of Robert McNaught, a sergeant of detectives of New York, papers were issued during the day at Governor Herrick's office for the extradition of J. Morgan Smith and his wife, Julia Patterson Smith, who are under arrest in Cincinnati and wanted in New York.

### EVANS SUCCEEDS BARKER.

Change in Command of the North Atlantic Fleet.

Washington, April 1.—After long and distinguished service Rear Admiral A. S. Barker, commander-in-chief of the North Atlantic fleet, hauled down his flag during the day on the Kearsarge and was placed on the retired list of the navy. In the war with Spain Admiral Barker was one of the most prominent members of the strategy board. He was later in command of the navyyard, New York, and from there in April, 1903, was appointed to the supreme command of the North Atlantic fleet. Admiral Barker will make his home in Washington. He is a native of Massachusetts, whence he was appointed to the naval academy.

Rear Admiral Evans succeeds Admiral Barker in command of the fleet and selected the Maine for his flagship.

### BOTH MEN ARE DEAD.

Brothers-in-Law Fight Duel at Malone, N. Y.

Malone, N. Y., April 1.—Summer Hazen, a bridegroom of a week, and John Hall, his wife's brother, are dead as the result of an exchange of pistol shots at Hall's home. When Hall learned that Hazen and his sister were to be married he warned Hazen that he would resort to violence, if necessary, to prevent the ceremony. Nothing came of the threat and the newly married couple, believing that the trouble had blown over, started for a visit to the bride's brother's home. They had hardly crossed the threshold before Hall drew a revolver and sent a bullet into his brother-in-law's body. As Hazen fell he whipped a revolver from his own pocket and returned the shot. Both men received fatal wounds and died within a few hours.

### MANY WITNESSES SUMMONED.

Senate Railroad Rate Hearing Will Continue Until June 1.

Washington, April 1.—Senator Elkins, chairman of the senate committee on interstate commerce, has assured the president that the investigation of the railroad rate question would be continued by the committee during the president's absence in the West. The committee will meet April 17. The list of witnesses to be summoned has not been completed, but the senator said it was the plan to have enough persons summoned to keep the committee going until June 1. He had no doubt that a good working bill would be prepared in time for consideration in October if congress assembled at that time.

### MAY LOCATE PLANT THERE.

American Steel Trust Officials Visit Sarnia, Ont.

Detroit, April 1.—A Journal special from Port Huron, Mich., says that a party of twelve officials of the United States Steel corporation is inspecting the river front property at Sarnia, Ont., just across the St. Clair river from this city, with the object of locating a Canadian plant there if satisfactory arrangements can be made. The steel company officials were taken aboard a tug by a delegation of Sarnia business men for the inspection.

### Want MacDonnell Ousted.

London, April 1.—The Irish Unionists, at a meeting during the day, resolved to withhold their support of the government on all questions involving an expression of confidence in its Irish administration so long as Sir Antony Patrick MacDonnell is retained at his post as under secretary to the lord lieutenant of Ireland.

### Philadelphia Publisher Suicides.

Philadelphia, April 1.—Charles E. Metzinger, a publisher, was found dead in a chair in his office with a bullet wound in his breast. A revolver lay on his desk. It is supposed he shot himself, though no motive is known.

### Concerning Subscriptions.

There seems to be a misapprehension on the part of some as regards the subscription rates on THE DAILY DISPATCH. The rate of \$4 a year or \$1 for three months, is an advance rate and placed thereon in order to save the expense of collection and avoid the loss of accounts. Some, however, seem to think that they can pay at the end of the year and are then entitled to the paper for \$4. A moment's thought will show that such a course is simply putting a premium on not paying and would if permitted result in the loss to us of many accounts of nearly or quite a year each. Parties wishing the yearly rate must pay in advance or promptly on the presentation of account by the collector, if

### REFUSE TO DISCUSS CASE.

J. Morgan Smith and Wife Held by Ohio Officials.

Cincinnati, April 1.—J. Morgan Smith and his wife, the brother-in-law and sister of Nan Patterson, the actress held in New York on a charge of murdering Caesar Young, passed a quiet night at the Central police station, but neither would discuss the matter of their detention. District Attorney Jerome of New York requested the local authorities to see to it that every interest of the people of New York is safeguarded.

A telegram from one of Miss Patterson's attorneys said: "Keep your mouth shut. Your interests will be protected."

No definite charge has yet been placed against the couple, but as soon as the documents arrive from New York showing that they are under indictment there a charge of being fugitives from justice will be entered against them.

The conspiracy with which Smith and his wife are charged is that, with Nan Patterson, they tried to extort money from Young on the basis of a false claim that she was about to become the mother of a child for which he would be responsible.

Columbus, O., April 1.—On application of Robert McNaught, a sergeant of detectives of New York, papers were issued during the day at Governor Herrick's office for the extradition of J. Morgan Smith and his wife, Julia Patterson Smith, who are under arrest in Cincinnati and wanted in New York.

### EVANS SUCCEEDS BARKER.

Change in Command of the North Atlantic Fleet.

Washington, April 1.—After long and distinguished service Rear Admiral A. S. Barker, commander-in-chief of the North Atlantic fleet, hauled down his flag during the day on the Kearsarge and was placed on the retired list of the navy. In the war with Spain Admiral Barker was one of the most prominent members of the strategy board. He was later in command of the navyyard, New York, and from there in April, 1903, was appointed to the supreme command of the North Atlantic fleet. Admiral Barker will make his home in Washington. He is a native of Massachusetts, whence he was appointed to the naval academy.

Rear Admiral Evans succeeds Admiral Barker in command of the fleet and selected the Maine for his flagship.

### BOTH MEN ARE DEAD.

Brothers-in-Law Fight Duel at Malone, N. Y.

Malone, N. Y., April 1.—Summer Hazen, a bridegroom of a week, and John Hall, his wife's brother, are dead as the result of an exchange of pistol shots at Hall's home. When Hall learned that Hazen and his sister were to be married he warned Hazen that he would resort to violence, if necessary, to prevent the ceremony. Nothing came of the threat and the newly married couple, believing that the trouble had blown over, started for a visit to the bride's brother's home. They had hardly crossed the threshold before Hall drew a revolver and sent a bullet into his brother-in-law's body. As Hazen fell he whipped a revolver from his own pocket and returned the shot. Both men received fatal wounds and died within a few hours.

### MANY WITNESSES SUMMONED.

Senate Railroad Rate Hearing Will Continue Until June 1.

Washington, April 1.—Senator Elihu, chairman of the senate committee on interstate commerce, has assured the president that the investigation of the railroad rate question would be continued by the committee during the president's absence in the West. The committee will meet April 17. The list of witnesses to be summoned has not been completed, but the senator said it was the plan to have enough persons summoned to keep the committee going until June 1. He had no doubt that a good working bill would be prepared in time for consideration in October if congress assembled at that time.

### MAY LOCATE PLANT THERE.

American Steel Trust Officials Visit Sarnia, Ont.

Detroit, April 1.—A Journal special from Port Huron, Mich., says that a party of twelve officials of the United States Steel corporation is inspecting the river front property at Sarnia, Ont., just across the St. Clair river from this city, with the object of locating a Canadian plant there if satisfactory arrangements can be made. The steel company officials were taken aboard a tug by a delegation of Sarnia business men for the inspection.

### Want MacDonnell Ousted.

London, April 1.—The Irish Unionists, at a meeting during the day, resolved to withhold their support of the government on all questions involving an expression of confidence in its Irish administration so long as Sir Antony Patrick MacDonnell is retained at his post as under secretary to the lord lieutenant of Ireland.

### Philadelphia Publisher Suicides.

Philadelphia, April 1.—Charles E. Metzinger, a publisher, was found dead in a chair in his office with a bullet wound in his breast. A revolver lay on his desk. It is supposed he shot himself, though no motive is known.

## BANKING BILL KILLED

MEASURE TO REGULATE PRIVATE INSTITUTIONS POSTPONED BY THE SENATE.

BJORGE'S COUNTY SUPERINTENDENT OF SCHOOLS BILL DIES IN THE HOUSE.

St. Paul, April 1.—The senate banking committee bill for the regulation of private banks was killed in the senate Friday as the result of an amendment by Senator Collier of Shakopee.

The bill came up on general orders. Senator McGill offered an amendment for the benefit of private banks in Hamline and St. Anthony Park; to exempt from necessary increase in capital banks of \$10,000 capital which have been in business one year. This amendment was overwhelmingly voted down on the ground that it would nullify the bill, and on Senator Lord's remark that it would make it unconstitutional.

Senator Collier then offered the fatal amendment, to prohibit private banks from loaning over 25 per cent of their capital to any one party.

Senator Collier said this amendment was needed. He said:

"The only safeguard to the people of this state on private banks is to limit the loans to one party. If this bill is passed unamended it makes the private bank system for the people worse than before, for they understand the old system, and they would have to learn the new without its danger known to them."

Might as Well Kill the Bill. Senator Somerville said if the Collier amendment passed the bill might as well be killed.

On vote, the Collier amendment prevailed, 12 against, 24 in favor of it.

Senator Thorpe moved the bill be recommended to pass. Senator Somerville moved a substitute motion for indefinite postponement. The substitute motion prevailed, 21 against, 23 for the motion.

The Cowan bill to change the name of Pine county to Clover county passed, 39 to 1. Senator Durant alone voted no. He thought sentimentality not sufficient reason for changing the name of a county.

Representative Erickson's anti-bucket shop bill was recommended for passage by the senate after strong pleas by Senators Schutz and Schaller.

Bills passed including the Dunn voting machine bill, S. F. 493; and the Somerville bill, S. F. 323, providing procedure for collecting an inheritance tax.

THE BJORGE MEASURE KILLED.

House Indefinitely Postpones School Superintendent Bill.

The Borge bill to provide for educational qualifications for county superintendents of schools was killed by the house. Following an hour's consideration, during which various attempts to amend it were defeated, the house, 41 to 38, indefinitely postponed the bill.

The Borge bill, which was in line with a recommendation made by Governor Johnson and the result of the combined labors of the state superintendent and a number of leading county superintendents, provided that the county board of education should elect the superintendent. Educational qualifications were to be required, and it was argued that the plan would result in a higher type of superintendents and the removal of the office from politics.

The house passed, under suspension of the rules, the Chamberlain juvenile court bill. It was favorably reported by the judiciary committee. It applies to cities of 50,000 and over. It selects one district judge in each county to sit exclusively in juvenile matters. The court is given extraordinary discretionary power in treating juvenile dependents and delinquents under seventeen, and may appoint legal guardians. Probation officers are provided for.

Only One Dissenting Vote.

With only one member, John F. Selb, dissenting, the house passed General M. D. Flower's bill, permitting a \$150,000 bond issue by St. Paul for the reconstruction of the Fort Snelling bridge. The bill, though endorsed by the Ramsey county delegation several days ago, was held up in committee.

Heanepin county, fearful that its interests might be jeopardized, made temporary objection, but it was removed Friday.

The bill now goes to the senate. No opposition there is expected. The bill will take effect immediately on its passage.

The present bridge, built some fifty years ago, has been pronounced unsafe for anything but foot travel. The new bridge will mean a third street car line connecting the Twin Cities.

The house refused to concur in the senate amendments to the Robert's wide-open tax bill and a conference was asked for.

Representative J. H. Dorsey of McLeod county created some excitement in the house by declaring that Senator Henry Gjersten of Minneapolis was a lobbyist.

Mr. Gjersten is the author of a bill allowing legalizing chiropractic medicine now on the house calendar, and vigorously opposed by Mr. Dorsey.

Both houses adjourned to Monday.

The Colonel's Waterloo. Colonel John M. Fuller, of Honey Grove, Tex., nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter, he says: "I was nearly dead, of these complaints, and, although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold, and guaranteed to cure Dyspepsia, Biliousness and Kidney Disease, by H. P. Dunn & Co., druggist, at 50c a bottle.

See Sherlund for sewer connections. The Newest Notion With Sweet Pens. The crop was a complete success, while other growers in this location did not succeed at all. While I have no record of the quantity of the crop, I will say that I had a larger crop, better blooms of lasting quality, than any other grower with the same amount of ground planted. I had two awards at the New Jersey Horticultural society for these same blooms in June and July at Orange, N. J., and I know that had it not been for the inoculating of the seed I would not have been so successful.—W. J. Hesse, Newark, N. J.

FOR THE HOUSEWIFE

Exterminating Household Pests.

Dissolve two pounds of alum in three or four quarts of water. Leave it over night for the alum to dissolve. Then apply it boiling hot by means of a brush to every joint and crevice in the closet or shelves where the bugs congregate; also to the joints and crevices of bedsteads. Brush all the cracks in the floor and mop boards. Keep it boiling hot while using.

Cucumber peelings laid on the shelves and plaster of paris mixed with sugar placed in cracks are said to be fatal to insect life.

Borax is a simple enemy to ants and roaches. Scatter it dry.

A heavy chalk mark encircling your sugar box at a distance of four inches will surely prevent ants from troubling.

If a rat or mouse gets into your pantry stuff into its hole a rag saturated with a solution of cayenne pepper.

Peppermint sprigs laid around shelves and other places where mice frequent will drive them away. Chioride of lime will bring about the same result. Keep the chloride bottle corked.

Another enemy to roaches is a mixture of equal parts of flour and borax distributed freely in drawers and cracks and allowed to remain.

## AWAKENING OF CHINA.

How Celestials Are Impressed by Japanese Success.

THINK THEY CAN BEAT THE WEST

Chinese Officials Over the Empire Are Forming Large Armies—Peking Government Has Secured Pledges For 15,000,000 Taels For Military Reorganization—Why South China Favors a Japanese Protectorate.

Notable among the many effects of the present eastern war already apparent is the growing unrest among the better classes of Chinese, says a Shanghai correspondent of the New York Globe. Through all the ages they have been taught to regard the Japanese as "little men" and not in any sense their equals. On the other hand, the occidental has been trying for the last three-quarters of a century to impress upon the Chinese mind the notion of the vast superiority of the west over the east and, strange to say, had succeeded in making a considerable number of Chinese accept the unpalatable dictum that the man "from overseas" was really their superior. Moreover, among the occidentals who of late years have been thronging the marts of the orient were those known as Russians, from the great Russian empire, and who had so impressed the Chinese with their display of strength and greatness as to lead them to believe that the great Russian bear was the greatest, most to be dreaded world power under the heavens.

And now, behold! The men whom they had regarded as the least powerful on the earth have almost annihilated the magnificent armies of the great and dreaded bear.

At first the Celestial could scarcely believe his eyes, but Japanese success after success has rubbed open those eyes so wide that he is now beginning to lose much of his respect, fear born as it was, toward Russia in particular and toward all the western nations in general. "For if," say the Chinese, "little Japan can so successfully meet the greatest of western nations in battle, what might not China do, which is infinitely superior to Japan, in a contest with the west?"

It is in pursuance of this line of reasoning that several of the more progressive provincial governors have already outlined comprehensive military schemes against some future contingency. The central government also has had a special commissioner canvassing throughout the various provinces for war funds and to date has secured something like 15,000,000 taels in pledges for the various military reorganization schemes. Moreover, the various viceroys and Tartar generals over the empire have been making unheard-of efforts to raise and equip large armies in the shortest possible time.

The object of all this new activity on the part of the central and provincial governments is twofold—first, as precautionary measures against possible encroachments of foreigners, and, second, to prevent the successful issue of a threatened internal revolution.

There is an undercurrent of feeling everywhere prevalent and strongest among those in positions to know most concerning the present situation that at the close or before the end of the war now in progress China will be called upon to undergo a crisis such as she has never before experienced; that either certain powers whose interests, real or imaginary, are large will demand a readjustment of their "spheres of influence," to the great injury of the present autonomy of the empire, or that rebellions on a scale heretofore unknown will break out.

Whether or not the powers mentioned have already perfected their schemes of readjustment is not clearly known, but that plans and organizations, more or less perfect, having as an object the overthrow of the present dynasty and order of things are already in working order and just ready to be put into action is a widely known fact.

Within the past few weeks we have been apprised of a "readjustment" scheme fairly startling in its comprehensiveness. In brief, it is as follows: All the provinces south of the Yangtze except Yunnan are to rebel, throw off the yoke of tyranny imposed by the present Peking government and ask Japan to grant a protectorate over the new confederation; Yunnan and part of Szechuen are to be taken over by the French; the Yangtze region by the British; Shantung by the Germans, while Chihli, Shensi, Shansi, Kansu, Ill and neighboring Mongolian and Tibetan tribes are to be left to the control of the greatest Manchu dynasty, leaving Manchuria, of course, to the Japanese.

The educated Chinese is an astute individual. He sees and appreciates all too clearly the rapid progress and the reasons thereof of his closest neighbor, the Japanese. And he reasons with himself that if the Japanese, his inferiors, can accomplish such wonderful things in a country infinitely smaller and poorer than his own great empire what may be not do? And, so reasoning, he makes his plans.

The Chinese of the southern provinces have long opposed the Manchu rule and often have been on the point of rebellion. On the other hand, they greatly appreciate the progress and businesslike methods of the Japanese. So it is small wonder that all of south China should favor a Japanese protectorate, with opportunities for developing the country, rather than the oppression and stagnation of the present Peking government. Commercially it would be a great boon to the southern provinces to be under Japanese rule and protection, and the empire's commerce is very largely controlled by these same southern provinces.

CONFIDENCE IN THE FUTURE.

Trade and Industry Continue Steady and Strong.

New York, April 1.—Bradstreet's weekly review of trade says excellent weather, favorable grain crop reports, expansion in industry, well maintained spring trade, particularly at the Western retail trade centers, and unimpaired confidence in the future are a sextette of conspicuously satisfactory features demanding notice this week. Special reports to Bradstreet's from all leading winter and spring wheat sections point to the winter sown crop having weathered the cold weather in excellent condition. Special reports from 108 cities of the United States point to an expenditure for houses, offices, factories and other edifices of \$455,000,000 during the present calendar year. Allowances for cities not yet reported would indicate that the total expenditures for edifices for this year would run well up to \$600,000,000. In addition to this marked activity in railroad building and heavy orders for equipment foreshadow an expenditure of probably \$200,000,000 by the railroads, this all pointing to an aggregate expenditure for material and labor of close to \$800,000,000. Relatively most activity in trade is still noted at the West. Signs of improvement are noted at the South.

FLAMES REPORTED SWEEPING ACROSS THE ROSEBUD INDIAN RESERVATION.

COUNTRY EXTREMELY DRY JUST NOW

SERIOUS RESULTS FEARED UNLESS CONFLAGRATION IS PROMPTLY CHECKED.

Omaha, April 1.—Reports received from Bonesteel, S. D., and other points on the Rosebud reservation tell of serious prairie fires that are sweeping across the reservation.

The country is extremely dry and serious results are feared unless the flames are checked.

A dispatch from Norfolk, Neb., says: Many homes and thousands of dollars' worth of hay were destroyed by the prairie fire. Peter Yerly, caught in the flames, rushed into a pond to extinguish his burning clothing after his hair had been burned off.

In a home containing eight children one was fatally burned and the entire family narrowly escaped death. The cause of the fire is unknown, but many lives were endangered.

THREE MEN INSTANTLY KILLED.

Northern Pacific Freight Crashes Into Stock Train.

Medora, N. D., April 1.—While a Northern Pacific stock train was standing on the bridge over the Little Missouri river here the rear end was struck by another train.

The caboose and a car of sheep were thrown into the river. In the caboose were four men, three of whom were killed instantly. They were: Pat Riley, traveling salesman for Armour & Co.; Henry Doty of Bowling Green, O.; David Simmons, Billings, Mont.

Harold Stritton of Bowling Green, O., had a leg broken and was taken to the hospital at Dickinson. The sheep in the car were all drowned.

It is difficult to say how the collision occurred, though it is explained that the brakes failed to work on the rear train.

SERIES OF CASUALTIES.

Three Persons Meet Sudden Deaths at St. Paul.

St. Paul, April 1.—Three dead bodies were taken to the county morgue during the morning.

The body of a man supposed to be W. R. Langley was found on the Great Northern railroad tracks at 5 o'clock partly dismembered. He had evidently been run down by a train.

John Blasler, hostler, was asphyxiated in the basement of A. P. Herschler's home and other members of the family narrowly escaped a like fate. Anna Shell, domestic, is still in a precarious condition.

Michael Healey, aged fifty, a laborer, was found dead in bed at the Maple Leaf hotel. He had been on a spree for several weeks. Death is believed to have been due to acute alcoholism.

TERRORIZE RESIDENTS.

Gang of Safeblowers Wreck Store at Tongtongay, O.

Cincinnati, April 1.—Four burglars blew up the safe in the general store of S. G. Whitmore at Tongtongay and after terrorizing the inhabitants of the village escaped into the country. They were intercepted at Grand Rapids, as they attempted to cross the Maumee river in Louis county, and a battle between the marshal of Grand Rapids and posse and the burglars ensued, shots being fired by both sides. No one was hurt. Sheriff Reno of this city with a posse is believed to have the burglars surrounded in Fishers woods, near Grand Rapids, and is slowly closing in on them. It is not known how much money they got. The store was wrecked and the goods damaged.

ENGINE HURLED INTO RIVER.

Boulder on Track Causes Wreck on Great Northern.

Basin, Mont., April 1.—A boulder on the track is understood to have caused the wreck of passenger train No. 235, westbound from St. Paul, on the Great Northern road. When plunging through the canyon of the Boulder river, two miles and a half from Basin, the train struck a rock that had slid down the side of the mountain and was derailed.

The engine plunged into the river and the engineer, John Webber, was instantly killed. Fireman Davis jumped for his life and escaped, but he sustained a crushed leg and arm.

Dr. Harper Rapidly Recovering.  
New York, April 1.—Dr. William R. Harper, president of the University of Chicago, who has been recuperating at Lakewood, N. J., from the effects of an operation, has surprised his physicians by so far recovering that he will be able to start for Chicago in a few days.

Mrs. Roosevelt Goes South.

Washington, April 1.—Mrs. Roosevelt and all of the children, with the exception of Miss Alice, have left Washington over the Atlantic Coast line for Jacksonville, Fla. At that place they will board the Sylph for a cruise.

Hoffman was also elected assistant secretary and M. McFadden assistant treasurer.

## JOSEPH WHITNEY INSTANTLY KILLED

Young Man Working at the Pulp Mill Caught in a Shafting Last Night

HE WAS GROUND TO PIECES

Parents Live at Fort Ripley and Young Man Worked at Mill Since it Started

Joseph Whitney, a young man 17 years of age, got caught in a shafting at the pulp mill of the Northwest Paper company at the dam last night about 6:30 o'clock and was instantly killed.

It was a most appalling accident, the young fellow's body being literally ground to pieces while some of his fellow workmen stood near and were helpless to do anything to assist him out the predicament he had gotten into.

There are two shifts at the mill and young Whitney, whose duty it was to look after one of the big grinders on the ground floor had finished half his day's work and was just sitting down to eat his lunch. In fact, he was eating when the night watchman, Chas. O'Connors, came on duty. It seems that there is a large belt running from the second floor to a shaft which is close to the ceiling on the first floor. This belt was used to run a conveyor and it is understood that the belt is usually removed at 6 o'clock at night and the conveyor stopped. The machinery is stopped usually by pulling a pin and moving the belt onto the loose wheel.

When Watchman O'Connor came in he noticed that this belt had not been moved as is customary and said something to young Whitney about it. It was not Whitney's duty to touch this belt but he said to O'Connor, "I'll run up and turn the thing off." The shaft is reached by means of a winding stairway and there is a landing at the top which runs parallel with the shaft. He got up on this landing pulled the pin and moved the belt over, but just as he was about to take his arm away the wrist band of his blouse caught between the pulley and the belt and pulled him around. From the wrist band his clothing got further tangled in the shafting and around and around he went until every rag on his body was torn into shreds except a small band of the leg of his undershorts. The pulley was but three or four feet from the wall and on the other side there was a sort of standpipe and as the young man's body flew around he hit the wall and standpipe alternately. It is thought that the first time he went around he hit squarely in the jaw on the standpipe and was probably rendered unconscious so that he never knew what happened after that.

The workmen stopped the machinery as quickly as possible, but the deadly work of the machinery had been done in a few seconds. When loosened from the belt, the body fell limp and bleeding to a small landing about six feet below.

The boy gasped once or twice after the men reached him. The body was battered and bruised and almost unrecognizable. Two deep gashes on the head would have been enough to cause instant death. His ribs were all broken, his left leg broken in two places, his left foot was smashed to a pulp and both shoulders and his jaw were dislocated.

Dr. A. F. Groves got a call about 6:30 and went to the scene immediately but the boy was dead by the time he got there.

In the absence of Coroner D. M. McDonald Deputy Coroner T. W. Gibson was called and he arrived on the scene about a quarter of 7 o'clock. The wall and the floor about the place were smeared with blood and small particles of flesh and it presented a gruesome sight. The body was picked up and brought to the D. M. Clark & Co. undertaking rooms and prepared for burial.

Those who were about the pulp mill at the time were Chas. O'Connor, John McKenna, Chas. Lindberg and Bert Larson, but none of these except O'Connors was nearby when the accident happened. It is not likely that an inquest will be held as it is thought it was purely accidental and the young man in reality was doing something that did not come under his line of duty.

Young Whitney was a son of Mr. and Mrs. J. N. Whitney, of Fort Ripley. The father was notified and arrived today from there. The mother of the boy is some four miles west of the city staying with her daughter for a short time and she too has been notified. The boy was very popular in East Brainerd, was steady and reliable and well thought of at the pulp mill. He has worked there since the mill started.

### SPECIAL

#### Important Addition to Our Business

Many inquiries from our customers in regard to cleaning ladies' and gents' clothing caused us to make a thorough investigation of the matter, and we know our customers will be pleased to learn that we have opened a special department for cleaning.

Cleaning will bring about a transformation in garments cast off and considered worthless.

If the fabric yet remains firm in coats, felt hats, vest, pantaloons, dress, cloak, neck ties, glove or any article of wear, it can be made practically new by the cleaning process operated by us.

Being equipped with the latest modern improvements and the most experienced workmen, we are enabled to treat all goods in a satisfactory manner and at the most reasonable prices.

We highly recommend our French dry cleaning process for all kinds of material, especially silks and woolen goods.

We solicit the patronage of those who really appreciate perfect work. Believing that a practical test would be more convincing than any argument of ours.

We make a specialty of French dry cleaning of ladies' and gents' clothing. We also dry clean fancy pillows, lamp shades and all styles of tapestry. The above are all cleaned in the most perfect manner without taking apart, no matter how badly they are soiled by dust or smoke, or how delicate in color. It thoroughly cleanses and removes all dirt and grease without injuring the texture, color or finish, and imparts to fabrics which have lost their brightness and lustre, a newness and life unattainable by any other process.

The finish fabrics in delicate colorings are treated with absolute success and the process highly recommends itself for silks, velvet and evening costumes, as it does not shrink material of any description.

P. M. ZAKARIASEN.

### CHANGE IN LAW FIRM

John Clarke Becomes a Member of the Firm of Alderman & Mantor Commencing With Today

Commencing today there is a change in the firm of Alderman & Mantor, John Clarke having been taken in and the firm name will be from now on Alderman, Mantor & Clarke.

Mr. Clarke has been in Brainerd but a few months but has made many friends and they will be glad to hear of his recognition. He is a worthy young gentleman and is thoroughly equipped, being a graduate of Yale, a member of the Connecticut state bar and also having been admitted to practice in this state. The firm originally was strong, both Mr. Alderman and Mr. Mantor being well known as the leading attorneys in northern Minnesota.

## MUSIC AND DRAMA.

CREATORE'S BAND MONDAY NIGHT.

As previously announced, Creatore and his Italian band, now visiting the Pacific coast, will stop in this on the evening of Monday, April 3, to give a concert at the Brainerd opera house. On this occasion Sig. Sodero, the Neapolitan harpist, will assist in solos of peculiar merit. Creatore and his musicians are too well known here to demand any lengthy description or comment. They have never failed to give enjoyable entertainments wherever they have appeared, and have always left a profound and satisfying impression upon their audiences—an impression which has proven a veritable education to thousands of those who either know music thoroughly, or who would if they could. Seats now selling at Dunn's.

### "HAPPY HOOLIGAN."

Lots of pretty girls, sweet catchy music, a display of gowns of the present day's latest creations, and the various stage accessories to match, a raging riot of rapid repartee and side-splitting scenes and comic sights is something like what is claimed for the now musical farce by Frank Dumont, called Happy Hooligan on Friday, April 7. It has some pretty music, and the comedy is sparkling with rapid fire wit and the hundred or more ludicrous, laughable, humorous situations that arise from that well-meaning, very obliging and extremely polite individual, Happy, who always comes to grief.

Ladies, if you want a refined and brilliant complexion, free from blemishes, use Hollister's Rocky Mountain Tea. Brings red lips, bright eyes and a cream-like complexion. 35 cents, tea or tablets. H. P. Dunn & Co.

### Miss Jessica O'Brien.

The Brainerd Ladies' Musical club has always been successful in securing some excellent artists for their open musical events and they are again triumphing in the fact that they have been successful in securing another very prominent pianist, Miss Jessica O'Brien, who will give a recital at the First Congregational church on Tuesday evening. Miss O'Brien is considered a peer among pianists in the northwest, her work being especially commended by musicians of the twin cities. In her playing before a musical club at Minneapolis her work was highly appreciated, as witness the following from the Journal:

"Her program this morning was an unusual one and with the exception of a Beethoven sonata, a number by Rameau and four Chopin compositions, it was made up of selections from the present day German composers. Two were by her master, Leschetizky, and there was a 'reverie' by Schutt and a 'romance' by Grunfeld, the three representing leading composers of Vienna."

Miss O'Brien is a pupil of Leschetizky, the great Polish pianist, and the following is a literal translation of the old professor's words:

"Vienna, Carl Ludwig Str. 42.—I hereby certify that Miss Jessica O'Brien, from St. Paul, Minn., in America, has studied the piano with me for seven years, and in accordance with much talent and serious industry made excellent progress. Miss O'Brien has at the same time perfectly acquired my system of teaching so that in a theoretical as well as practical way she will be capable of working with much success. Prof. Theodor Leschetizky."

### Tom Marks Stock Company

The Tom Marks Stock Company will be at the Brainerd opera house for a six night engagement commencing April 10. This is one of the best repertoire companies on the road. They have been playing the circuit and the press of Crookston, where they are now playing states that the performances are highly commendatory.

Clark & Co. undertaking rooms and prepared for burial.

Those who were about the pulp mill at the time were Chas. O'Connor, John McKenna, Chas. Lindberg and Bert Larson, but none of these except O'Connors was nearby when the accident happened. It is not likely that an inquest will be held as it is thought it was purely accidental and the young man in reality was doing something that did not come under his line of duty.

Young Whitney was a son of Mr. and Mrs. J. N. Whitney, of Fort Ripley. The father was notified and arrived today from there. The mother of the boy is some four miles west of the city staying with her daughter for a short time and she too has been notified. The boy was very popular in East Brainerd, was steady and reliable and well thought of at the pulp mill. He has worked there since the mill started.

## MATCH IS ARRANGED

Chas. Moth and L. D. Spaulding Will Wrestle in Gardner Hall on Next Wednesday Evening.

Chas. Moth, who wrestled in this city last year with Oscar Moxie, has arranged a match with L. D. Spaulding and they will come together on the mat at Gardner hall next Wednesday evening. Spaulding is the man who recently arrived from the Pacific coast. He is a six footer and weighs about two hundred and the match ought to be a good one.

## What Zakariasen Says

Spring patterns for suits have arrived. Why not patronize home industry? We can make you a suit to perfection, both in style and workmanship equal to any traveling tailor who visits our city. Why not be in line with the Commercial Club and patronize home industry. P. M. ZAKARIASEN.

## SPECIAL

### Important Addition to Our Business

Many inquiries from our customers in regard to cleaning ladies' and gents' clothing caused us to make a thorough investigation of the matter, and we know our customers will be pleased to learn that we have opened a special department for cleaning.

Cleaning will bring about a transformation in garments cast off and considered worthless.

If the fabric yet remains firm in coats, felt hats, vest, pantaloons, dress, cloak, neck ties, glove or any article of wear, it can be made practically new by the cleaning process operated by us.

Being equipped with the latest modern improvements and the most experienced workmen, we are enabled to treat all goods in a satisfactory manner and at the most reasonable prices.

We highly recommend our French dry cleaning process for all kinds of material, especially silks and woolen goods.

We solicit the patronage of those who really appreciate perfect work. Believing that a practical test would be more convincing than any argument of ours.

We make a specialty of French dry cleaning of ladies' and gents' clothing. We also dry clean fancy pillows, lamp shades and all styles of tapestry. The above are all cleaned in the most perfect manner without taking apart, no matter how badly they are soiled by dust or smoke, or how delicate in color. It thoroughly cleanses and removes all dirt and grease without injuring the texture, color or finish, and imparts to fabrics which have lost their brightness and lustre, a newness and life unattainable by any other process.

The finish fabrics in delicate colorings are treated with absolute success and the process highly recommends itself for silks, velvet and evening costumes, as it does not shrink material of any description.

P. M. ZAKARIASEN.

## CHANGE IN LAW FIRM

John Clarke Becomes a Member of the Firm of Alderman & Mantor Commencing With Today

Commencing today there is a change in the firm of Alderman & Mantor, John Clarke having been taken in and the firm name will be from now on Alderman, Mantor & Clarke.

Mr. Clarke has been in Brainerd but a few months but has made many friends and they will be glad to hear of his recognition. He is a worthy young gentleman and is thoroughly equipped, being a graduate of Yale, a member of the Connecticut state bar and also having been admitted to practice in this state. The firm originally was strong, both Mr. Alderman and Mr. Mantor being well known as the leading attorneys in northern Minnesota.

## MUSIC AND DRAMA.

CREATOR'S BAND MONDAY NIGHT.

As previously announced, Creator and his Italian band, now visiting the Pacific coast, will stop in this on the evening of Monday, April 3, to give a concert at the Brainerd opera house. On this occasion Sig. Sodero, the Neapolitan harpist, will assist in solos of peculiar merit. Creator and his musicians are too well known here to demand any lengthy description or comment. They have never failed to give enjoyable entertainments wherever they have appeared, and have always left a profound and satisfying impression upon their audiences—an impression which has proven a veritable education to thousands of those who either know music thoroughly, or who would if they could. Seats now selling at Dunn's.

"HAPPY HOOLIGAN."

Lots of pretty girls, sweet catchy music, a display of gowns of the present day's latest creations, and the various stage accessories to match, a raging riot of rapid repartee and side-splitting scenes and comic sights is something like what is claimed for the now musical farce by Frank Dumont, called Happy Hooligan on Friday, April 7. It has some pretty music, and the comedy is sparkling with rapid fire wit and the hundred or more ludicrous, laughable, humorous situations that arise from that well-meaning, very obliging and extremely polite individual, Happy, who always comes to grief.

Ladies, if you want a refined and brilliant complexion, free from blemishes, use Hollister's Rocky Mountain Tea. Brings red lips, bright eyes and a cream-like complexion. 35 cents, tea or tablets. H. P. Dunn & Co.

Miss Jessica O'Brien.

The Brainerd Ladies' Musical club has always been successful in securing some excellent artists for their open musical events and they are again triumphing in the fact that they have been successful in securing another very prominent pianist, Miss Jessica O'Brien, who will give a recital at the First Congregational church on Tuesday evening. Miss O'Brien is considered a peer among pianists in the northwest, her work being especially commended by musicians of the twin cities. In her playing before a musical club at Minneapolis her work was highly appreciated, as witness the following from the Journal:

"Her program this morning was an unusual one and with the exception of a Beethoven sonata, a number by Rameau and four Chopin compositions, it was made up of selections from the present day German composers. Two were by her master, Leschetizky, and there was a 'reverie' by Schutt and a 'romanzo' by Grunfeld, the three representing leading composers of Vienna."

Miss O'Brien is a pupil of Leschetizky, the great Polish pianist, and the following is a literal translation of the old professor's words:

"Vienna, Carl Ludwig Str. 42.—I hereby certify that Miss Jessica O'Brien, from St. Paul, Minn., in America, has studied the piano with me for seven years, and in accordance with much talent and serious industry made excellent progress. Miss O'Brien has at the same time perfectly acquired my system of teaching so that in a theoretical as well as practical way she will be capable of working with much success. Prof. Theodor Leschetizky."

Tom Marks Stock Company

The Tom Marks Stock Company will be at the Brainerd opera house for a six night engagement commencing April 10. This is one of the best repertoire companies on the road. They have been playing the circuit and the press of Crookston, where they are now playing states that the performances are highly commendatory.

## TO FIGHT EXTRADITION

J. MORGAN SMITH AND HIS WIFE  
OBJECT TO GOING BACK TO  
NEW YORK CITY.

ENDEAVORING TO GET FREE

SUSPECTED ACCOMPLICES IN AL-  
LEGED MURDER CASE TRY  
TO REGAIN LIBERTY.

Cincinnati, April 1.—That J. Morgan Smith and his wife would resist  
extradition to New York, where they  
have just been indicted for conspiracy  
with Nan Patterson, Mrs. Smith's sister,  
in connection with the alleged  
murder of Caesar Young, the well  
known bookmaker, who was killed in  
a cab in New York city last May, was  
made evident during the afternoon,  
when Attorney Shay secured writs of  
habeas corpus from Common Pleas  
Judge Smith, returnable Monday.  
One writ is for J. Morgan Smith and  
the other for his wife, Julia Patterson  
Smith, and it is alleged in the writs  
that the Smiths are held without  
warrant; that no charge has been  
placed against them and that there is  
no authority in law for their detention.

When arrested Thursday the two  
were held simply on "suspicion" and  
Friday when it was thought a writ of  
habeas corpus would be sought, Chief  
of Detectives Crawford filed an affidavit  
in police court charging Smith  
and his wife with being fugitives  
from justice. During the afternoon  
Detective Quinn of New York, who ar-  
rested Nan Patterson last May after  
the shooting of Caesar Young, and  
who was well acquainted with the  
Smiths, called at the central station  
and formally identified the Smiths as  
the persons named in the New York  
indictments. The writs are returnable  
before Judge Spiegel in the com-  
mon pleas court on Monday.

Before securing the writs Attorney  
Shay had called during the afternoon  
at the police station, and held a long  
conference with his clients, who met  
there for the first time since their  
arrest.

PLUNGES FROM A BRIDGE.

Unknown Man Ends His Life at St.  
Paul.

St. Paul, April 1.—After leisurely  
walking almost the length of the Wa-  
basha street bridge, Friday after-  
noon, a tall young man paused at the  
highest point of that structure, laid  
his feet on the sidewalk, then climbed  
up on top of the iron railing, balanced  
himself an instant, raised his hands  
above his head and plunged down  
toward the Mississippi river, ninety  
feet below. On the way, about twenty  
feet below the platform of the  
bridge his head struck one of the wire  
cables which cross the river under  
the bridge. The force of the collision  
torn him over and over and the wire  
cut his head, but it did not stop  
his fall for more than the instant.

His body went tumbling on down  
until it struck the water with a  
splash. A dozen people had seen him  
mount the railing and take the fatal  
plunge, but it was all done so quickly  
that they did not realize until too  
late the act that was meditated.

The man rose to the surface of the  
water and tried to swim ashore, call-  
ing for help, but before assistance  
could reach him he sank near the  
railroad bridge to rise no more.

ONE KILLED AND THREE HURT.

Accident During Attempt to Take  
Flashlight Photograph.

Omaha, April 1.—While taking a  
flashlight photograph at night, Albert  
Butler was instantly killed and Wil-  
liam Coffee, W. J. Murray and M.  
Levey were badly injured by an explo-  
sion of powder. Butler had set his  
grip containing a large supply of powder  
near the tripod and when he  
touched off the powder in the flash  
pan the fire spread to the grip and  
the explosion followed. The force of  
the explosion hurled Butler and his  
companions against a wall. Butler's  
breast was torn away.

WISCONSIN EDUCATOR DROWNED.

Professor White of Beloit Loses His  
Life in Rock River.

Beloit, Wis., April 1.—Montague  
White, professor of oratory at Beloit  
college, was accidentally drowned in  
Rock river during the day and a stu-  
dent named Roy Andrews had a nar-  
row escape. Particulars of the acci-  
dent are lacking.

Professor White graduated from  
Hamilton college, New York, last  
year. A brother of deceased is a  
professor at Hamilton.

Mrs. Roosevelt Starts South.

Washington, April 1.—Mrs. Roose-  
velt and three of her children, Miss  
Ethel, Kermit and Archie, left Wash-  
ington at 8:40 p. m. on the Atlantic  
Coast line Florida special for Jack-  
sonville, Fla. At Jacksonville they  
will board the yacht Sylph for a  
cruise of some days.

Consumptive Commits Suicide.

Pasadena, Cal., April 1.—Despond-  
ency brought on by tuberculosis led  
Ferdinand Volkmar, a wealthy resi-  
dent of this city, to commit suicide  
by blowing off the top of his head  
with a shotgun.

Canadian's opinion of a Folding Bed

A man from Canada was shown to a  
room at the Coates House in Kansas  
City, Mo., the other night. He looked  
around, puzzled, and called the bell-  
boy back, says the Kansas City Star.

"Where's the bed?" he asked.  
"Right here."  
"I don't see anything that looks like  
one."

The boy then pulled the folding bed  
down from the wall. The Canadian  
watched him, amazement on his face.  
"Well, now, ain't that a darned fool  
Yankee yap trick?" he said.

Song of the Season.

When the gold is on the willow and the  
maple buds are red,  
When your feet have grown so heavy that  
you fear they're made of lead,  
When the fever's in your system and  
you're lazy as the deuce,  
And your ever ready answer is a muffled  
"What's the use?"  
Then it's time to hang the kettle and pre-  
pare for making soap.  
Just beside the ash filled hopper on the  
orchard's sunny slope;  
Then the season's full of trouble in this  
semi-southern clime.  
For it brings that awful something known  
as "garden makin' time."

Fallow ground with clods to crumble, pa-  
per bags of onion sets,  
Rake and hoe and soil stained garments  
and a soul that sorely frets  
At the prospect of exertion even of the  
mildest kind,  
And your humming over makes you sort'o'  
dizzy-like and blind.

Beets and radishes and lettuce, peas and  
seven breeds of bean,  
Peppies, marigolds and larkspurs for the  
walks and in between;  
These the things inseparable from the  
days that reek with rhyme.  
These the tragedies that trouble us in  
"garden makin' time."

ROSSEAU NOT SENTENCED.

Dynamiter Examined at Length by  
Recorder Goff.

New York, April 1.—Gessler Ros-  
seau, the dynamiter who was con-  
victed of sending an infernal machine  
to the Cunard line steamer Umbria,  
and who also has confessed to hav-  
ing attempted to blow up the statue  
of Frederick the Great at Washing-  
ton, was not sentenced Friday. In-  
stead, when he appeared before Re-  
corder Goff in the court of general  
sessions, sentence was indefinitely de-  
ferred after the prisoner had been ex-  
amined at length by the recorder.  
When Rosseau's case was called his  
attorney presented an affidavit ques-  
tioning the prisoner's sanity and asked  
that a commission be appointed to ex-  
amine him. The recorder asked Ros-  
seau several questions. The dynamit-  
er replied that some of the things he  
had done appear ridiculous to him  
now, but he assured the recorder that  
he never intended to take any life;  
that he had never at any time or in  
any way had any connection with any  
secret organization; that he never  
had offered his machines to any  
European government; and that he  
never received any money for the ma-  
chines which he made for the Cubans.  
The recorder questioned Rosseau  
about his family, but the latter re-  
plied, "I have friends and relatives,  
but I would rather leave my case in  
your hands and not call them into it."

**WHERE TO WORSHIP**

J. MORGAN SMITH AND HIS WIFE  
 OBJECT TO GOING BACK TO  
 NEW YORK CITY.

**ENDEAVORING TO GET FREE**  
 SUSPECTED ACCOMPLICES IN AL-  
 LEGED MURDER CASE TRY  
 TO REGAIN LIBERTY.

Cincinnati, April 1.—That J. Mor-  
 gan Smith and his wife would resist  
 extradition to New York, where they  
 have just been indicted for conspiracy  
 with Nan Patterson, Mrs. Smith's sis-  
 ter, in connection with the alleged  
 murder of Caesar Young, the well  
 known bookmaker, who was killed in  
 a cab in New York city last May, was  
 made evident during the afternoon,  
 when Attorney Shay secured writs of  
 habeas corpus from Common Pleas  
 Judge Smith, returnable Monday.  
 One writ is for J. Morgan Smith and  
 the other for his wife, Julia Pat-  
 terson Smith, and it is alleged in the  
 writs that the Smiths are held with-  
 out warrant; that no charge has been  
 placed against them and that there is  
 no authority in law for their deten-  
 tion.

When arrested Thursday the two  
 were held simply on "suspicion" and  
 Friday when it was thought a writ of  
 habeas corpus would be sought, Chief  
 of Detectives Crawford filed an affi-  
 davit in police court charging Smith  
 and his wife with being fugitives  
 from justice. During the afternoon  
 Detective Quinn of New York, who ar-  
 rested Nan Patterson last May after  
 the shooting of Caesar Young, and  
 who was well acquainted with the  
 Smiths, called at the central station  
 and formally identified the Smiths as  
 the persons named in the New York  
 indictments. The writs are return-  
 able before Judge Spiegel in the com-  
 mon pleas court on Monday.

Before securing the writs Attorney  
 Shay had called during the afternoon  
 at the police station, and held a long  
 conference with his clients, who met  
 there for the first time since their  
 arrest.

**PLUNGES FROM A BRIDGE.**  
 Unknown Man Ends His Life at St.  
 Paul.

St. Paul, April 1.—After leisurely  
 walking almost the length of the Wa-  
 basha street bridge, Friday after-  
 noon, a tall young man paused at the  
 highest point of that structure, laid  
 his feet on the sidewalk, then climbed  
 up on top of the iron railing, balanced  
 himself an instant, raised his hands  
 above his head and plunged down  
 toward the Mississippi river, ninety  
 feet below. On the way, about twenty  
 feet below the platform of the  
 bridge his head struck one of the wire  
 cables which cross the river under  
 the bridge. The force of the colli-  
 sion turned him over and over and the  
 wire cut his head, but it did not stop  
 his fall for more than the instant.

His body went tumbling on down  
 until it struck the water with a  
 splash. A dozen people had seen him  
 mount the railing and take the fatal  
 plunge, but it was all done so quick-  
 ly that they did not realize until too  
 late the act that was meditated.

The man rose to the surface of the  
 water and tried to swim ashore, call-  
 ing for help, but before assistance  
 could reach him he sank near the  
 railroad bridge to rise no more.

**ONE KILLED AND THREE HURT.**  
 Accident During Attempt to Take  
 Flashlight Photograph.

Omaha, April 1.—While taking a  
 flashlight photograph at night, Albert  
 Butler was instantly killed and Wil-  
 liam Coffey, W. J. Murray and M.  
 Levey were badly injured by an explo-  
 sion of powder. Butler had set his  
 grip containing a large supply of pow-  
 der near the tripod and when he  
 touched off the powder in the flash  
 pan the fire spread to the grip and  
 the explosion followed. The force of  
 the explosion hurled Butler and his  
 companions against a wall. Butler's  
 breast was torn away.

**WISCONSIN EDUCATOR DROWNED.**  
 Professor White of Beloit Loses His  
 Life in Rock River.

Beloit, Wis., April 1.—Montague  
 White, professor of oratory at Beloit  
 college, was accidentally drowned in  
 Rock river during the day and a stu-  
 dent named Roy Andrews had a nar-  
 row escape. Particulars of the acci-  
 dent are lacking.

Professor White graduated from  
 Hamilton college, New York, last  
 year. A brother of deceased is a  
 professor at Hamilton.

**Mrs. Roosevelt Starts South.**  
 Washington, April 1.—Mrs. Roose-  
 velt and three of her children, Miss  
 Ethel, Kermit and Archie, left Wash-

**Incredible Brutality.**  
 It would have been incredible brutali-  
 ty if Chas. F. Lemberger, of Syracuse,  
 N. Y., had not done the best he could  
 for his suffering son. "My Boy," he  
 says, "cut a fearful gash over his eye,  
 so I applied Bucklen's Arnica Salve,  
 which quickly healed it and saved his  
 eye. Good for burns and ulcers too.  
 Only 25c at H. P. Dunn & Co. drug  
 store."

**Canadian's Opinion of a Folding Bed.**  
 A man from Canada was shown to a  
 room at the Coates House in Kansas  
 City, Mo., the other night. He looked  
 around, puzzled, and called the bell-  
 boy back, says the Kansas City Star.  
 "Where's the bed?" he asked.  
 "Right here."  
 "I don't see anything that looks like  
 one."  
 The boy then pulled the folding bed  
 down from the wall. The Canadian  
 watched him, amazement on his face.  
 "Well, now, ain't that a darned fool  
 Yankee yarp trick?" he said.

**Song of the Season.**  
 When the gold is on the willow and the  
 maple buds are red,  
 When your feet have grown so heavy that  
 you fear they're made of lead,  
 When the fever's in your system and  
 you're lazy as the dullest,  
 And your ever ready answer is a muffled  
 "What's the use?"  
 Then it's time to hang the kettle and pre-  
 pare for making soap.  
 Just beside the ash filled hopper on the  
 orchard's sunny slope;  
 Then the season's full of trouble in this  
 semi-southern clime.  
 For it brings that awful something known  
 as "garden makin' time."

Fallow ground with clods to crumble, pa-  
 per bags of onion sets,  
 Rake and hoe and soil stained garments  
 and a soul that sorely frets  
 At the prospect of exertion even of the  
 mildest kind,  
 And your humping over makes you sort o'  
 dizzy-like and blind.  
 Beets and radishes and lettuce, peas and  
 seven breeds of bean,  
 Poppies, marigolds and larkspurs for the  
 walks and in between;  
 These the things inseparable from the  
 days that reek with rhyme.  
 These the tragedies that trouble us in  
 "garden makin' time."  
 —Baltimore American.

**ROSSEAU NOT SENTENCED.**  
 Dynamiter Examined at Length by  
 Recorder Goff.

New York, April 1.—Gessler Ros-  
 seau, the dynamiter who was con-  
 victed of sending an infernal machine to  
 the Cunard line steamer Umbria,  
 and who also has confessed to hav-  
 ing attempted to blow up the statue  
 of Frederick the Great at Washing-  
 ton, was not sentenced Friday. In-  
 stead, when he appeared before Re-  
 corder Goff in the court of general  
 sessions, sentence was indefinitely de-  
 ferred after the prisoner had been ex-  
 amined at length by the recorder.  
 When Rosseau's case was called his  
 attorney presented an affidavit ques-  
 tioning the prisoner's sanity and asked  
 that a commission be appointed to ex-  
 amine him. The recorder asked Ros-  
 seau several questions. The dynamiter  
 replied that some of the things he  
 had done appear ridiculous to him  
 now, but he assured the recorder that  
 he never intended to take any life;  
 that he had never at any time or in  
 any way had any connection with any  
 secret organization; that he never  
 had offered his machines to any  
 European government; and that he  
 never received any money for the ma-  
 chines which he made for the Cubans.  
 The recorder questioned Rosseau  
 about his family, but the latter re-  
 plied, "I have friends and relatives,  
 but I would rather leave my case in  
 your hands and not call them into it."

planters scattered the world over are  
 willing to say under oath that Salzer's  
 Earliest Vegetables are from six to  
 twenty days earlier than the earliest of  
 their kind produced from other seed-  
 men's seeds. Why? Because for more  
 than one-third of a century Salzer's Seeds  
 have been bred up to earliness.
